

## News and Updates

### Automotive SPiCE PAM 3.0 available

2015-11-21 17:12

### New: SPiCE 1-2-1 for Automotive PAM 3.0 Tool in English & German

**In addition to the well known SPiCE 1-2-1 for Automotive - which supports PAM 2.5 in English and German - there is a new tool available: SPiCE 1-2-1 for Automotive PAM 3.0**

This new edition includes the Process Assessment Model 3.0, which was released on July, 16<sup>th</sup> 2015. See [www.automotivespice.com](http://www.automotivespice.com).

Beyond the usual assessment features, the assessor can now switch between English and German during the assessment.

Because of structural changes in the process dimension and amongst the generic practices - inspired from ISO 33020 - the assessment files with PAM 3.0 are not compatible with PAM 2.5 (oder 2.4, 2.3) files. Therefore we offer two separate tools: one for PAM 3.0, the other for PAM 2.5.

**The Quest Tool Version 3.2.0 is available for all Quest Tools released on Nov. 20<sup>th</sup>, 2015!**

All our available assessment tools (SPiCE, CMMI and others) have been updated to reflect the latest version of the assessment core framework which now incorporates features like advanced practices, pre-selected processes and highlighted practices and selection of multiple questionnaires (if provided) and

works fine with Win 10, both 32 and 64 bit edition.
